

NEW! EDEN HEALTH VIRTUAL PRIMARY CARE FOR SISC PPO MEMBERS

Effective 4/1/23, SISC is pleased to expand primary care access to SISC PPO Members* through a new smart phone application, Eden Health.

Clinical evidence supports that having a relationship with a primary care provider improves health outcomes and lowers costs. That’s why we encourage our membership to establish a relationship with a primary care provider. Eden is a way we can expand that access.
